Fern Avenue Public School

**Autumn is a young girl who has dreams of becoming a professional actor.**

She has preformed in many musicals and won 2nd place for a speech that she wrote and preformed herself in French.

When Autumn is not hanging with friends or practicing a script, you might find her on a rope course, swinging on a swing in the back alley, or working on her book.

Autumn is a real extrovert and loves being around people. She is sweet; but don't be fooled, she is also fiercely determined and smart. Once she warms up to her audience, she has an outgoing sense of humour, contagious laugh and sparkles with joy.

Autumn loves to talk, sing, and write. Her mind is always observing, reflecting and bursting with creative ideas.
